Commissioner of Patents and Trademarks  
Washington, D.C. 20231

Madam:

In response to the Office Action Dated 06/04/02 the applicant request restriction to Group II of claims 23-39, drawn to a method of detecting the presence of HIV antibodies classified in 435, subclass 5.

**Remarks**

In Response to paragraph 2, page 2 of the Office Action dated 06/04/02 the applicant suggest that instead of cancellation that the claims be restricted (e.g. excluding certain elements (Western Blot/Thin Layer) by using closed claim language, such as – consisting essentially of --, could be used? If the examiner agrees, then the applicant wishes to restrict such claims as suggested by the Examiner.

In addition, Claims 5 and 8 were deleted in a communication to Examiner dated 10/10/02. In the case the Examiner has not received that communication, please delete claims 5 and 8.

Respectfully Submitted,

Jack V. Smith
